PROFILE

AI Engineer with experience in Enterprise GenAI, Prompt Engineering, LLM evaluation, RAG workflows, and Data Engineering. Skilled in optimizing prompts, preparing datasets, evaluating AI outputs, and building reliable AI applications with Python, SQL, FastAPI, DuckDB, Docker, and cloud technologies. Background includes GenAI work in an insurance IT environment.

SKILLS

Programming: Python, SQL, Pandas, NumPy

AI & GenAI: Prompt Engineering, Conversational AI, LLM Evaluation, RAG, Embeddings, FAISS

Data Engineering: PySpark, Databricks, Airflow, ETL/ELT, DuckDB, dbt, Data Modeling

Backend & Infrastructure: FastAPI, REST APIs, Docker, React, Git, GitHub Actions, CI/CD

Cloud & Visualization: Azure, Plotly, Streamlit, Workflow Automation

PROFESSIONAL EXPERIENCE

ITERGO Informationstechnologie GmbH

09/2025 – 03/2026

Working Student | Generative AI

Düsseldorf, Germany

- Optimized prompts for **30+ enterprise GenAI use cases** in an insurance IT environment.
- Evaluated **LLM responses** for correctness, clarity, consistency, and business relevance.
- Worked with cross-functional GenAI teams to refine use-case requirements and AI workflows.

ITERGO Informationstechnologie GmbH

03/2025 – 08/2025

AI Intern | Generative AI

Düsseldorf, Germany

- Prepared structured datasets for **20+ enterprise AI use cases** and prompt evaluations.
- Supported LLM validation, prompt evaluation, dataset preparation, and AI quality checks.
- Automated testing and validation workflows, reducing manual evaluation effort by **50%**.

Accenture Services Private Limited

09/2021 – 08/2023

Data Engineering Analyst | Client: Linde PLC, Germany

Mumbai, India

- Developed Python and SQL ETL pipelines processing **1M+ records/month**.
- Built reporting and interface integrations, reducing operational effort by **25%**.
- Implemented data quality and validation controls across enterprise ETL workflows.

PROJECTS

AI Incident Copilot – GenAI Incident Intelligence Platform

[GitHub]

- Built a **RAG-based GenAI platform** for natural-language incident investigation and RCA.
- Implemented vector retrieval, evidence-backed responses, source tracing, and RCA evaluation.
- Developed with **FastAPI, React, Ollama, ChromaDB, Docker, and Python**.

Mosaic – AI Investigation Agent

[GitHub]

- Built an **AI investigation prototype** for business analytics and document evidence workflows.
- Implemented natural-language querying, verified SQL, DuckDB analytics, and evidence ranking.
- Added document search, missing-field detection, and human review with **Python, FAISS, Streamlit**.

EDUCATION

Darmstadt University of Applied Sciences

09/2023 – 03/2026

M.Sc. Electrical Engineering & Information Technology

Darmstadt, Germany

St. Francis Institute of Technology

08/2017 – 06/2021

B.E. Electronics & Telecommunication Engineering | CGPA: 8.61/10

Mumbai, India

LANGUAGES

German (B1), English (C2)
